Reasons for Allowance

Claims 1, 3, 4, 5, 7 & 8 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable because the prior art of record does not teach or fairly suggest a microcontroller-based system comprising all the features as recited in the claims and in combination with a single analog memory circuit operable with both full-wave and half-wave power supplies to provide a timing function to control said spaced time intervals and said intervening time intervals, and a memory function set in response to detection of a ground-fault or grounded-neutral condition to resume a circuit trip if power is temporarily lost before said circuit interrupter activates.

Claim 5 is allowable because the prior art of record does not teach or fairly suggest a method of detecting ground fault and grounded-neutral conditions comprising all the features as recited in the claims and in combination with a single analog memory to provide a timing function to control intervals for testing for ground-fault or grounded-neutral conditions, and a memory function set in response to detection of a ground-fault or grounded-neutral condition to resume a trip condition if power is temporarily lost before said current flow in said power distribution system is interrupted.

Claims 3, 4, 7 & 8 are allowable for reasons given in the previous Office Action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Bauer whose telephone number is 571-272-5986. The examiner can normally be reached on M-F 9am-6pm.
